

# 65+ Men

A simple scan can tell you if you  
have an abdominal aortic aneurysm

This is an enlargement of the main blood vessel in the  
abdomen and if left untreated it can be fatal

Men aged 65+ are most at risk

NHS screening invitations will be sent to men aged 65  
this year and those over 65 can request a scan

For more information, call the **Black Country AAA  
Screening Programme** on **01384 321125**,  
visit **[aaa.screening.nhs.uk](http://aaa.screening.nhs.uk)** or **talk to your GP**
